WestPark Capital, Inc.
Notes to Financial Statements

NOTE 1: ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Business

WestPark Capital, Inc. (the "Company") is a Colorado corporation formed on October 17, 1995. The Company currently operates as a registered securities broker-dealer with the Securities and Exchange Commission and is a member of the Financial Industry Regulatory Authority. The Company is a wholly owned subsidiary of WestPark Capital Financial Services, LLC ("Parent").

The Company, under Rule 15c3-3(k)(2)(ii) is exempt from the reserve and possession or requirements of Rule 15c3-3 of the Securities and Exchange Commission. The Company does not carry or clear customer accounts. Accordingly, all customer transactions are executed and cleared on behalf of the Company by its clearing broker on a fully disclosed basis. The Company's agreement with its clearing broker provides that as clearing broker, that firm will make and keep such records of the transactions effected and cleared in the customer accounts as are customarily made and kept by a clearing broker pursuant to the requirements of Rules 17a-3 and 17a-4 of the Securities and Exchange Act of 1934, as amended (the "Act"). It also performs all services customarily incident thereto, including the preparation and distribution of customer's confirmation and statements and maintenance margin requirements under the Act and the rules of the Self Regulatory Organizations of which the Company is a member.

Securities Valuation and Revenue Recognition

Securities owned by the Company (substantially common stock) are recorded at fair value and related changes in fair value are reflected in income. The Company records securities transactions and related revenue and expenses on a trade date basis.

The Company values its securities in accordance with Accounting Standards Codification 820 - Fair Value Measurements ("ASC 820"). Under ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

In determining fair value, the Company uses various valuation approaches. ASC 820 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Company. Unobservable inputs reflect the Company's assumption about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels based on the inputs as follows:

WestPark Capital, Inc.
Notes to Financial Statements

Securities Valuation and Revenue Recognition (continued)

Level 1 - Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Valuation adjustments and blockage discounts are not applied to Level 1 securities. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment.

Level 2 - Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

The availability of valuation techniques and observable inputs can vary from security to security and is affected by a wide variety of factors, including the type of security, whether the security is new and not yet established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Those estimated values do not necessarily represent the amounts that may be ultimately realized due to the occurrence of future circumstances that cannot be reasonably determined. Because of the inherent uncertainty of valuation, those estimated values may be materially higher or lower than the values that would have been used had a ready market for the securities existed. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for securities categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined by the lowest level input that is significant to the fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Company's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. The Company uses prices and inputs that are current as of the measurement date, including during periods or market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many securities. This condition could cause a security to be reclassified to a lower level within the fair value hierarchy.

The Company values investments in securities that are freely tradable and are listed on a national securities exchange or reported on the NASDAQ national market at their last sales price as of the last business day of the year.

WestPark Capital, Inc.
Notes to Financial Statements

Securities Valuation and Revenue Recognition (concluded)

Many cash and over-the-counter (OTC) contracts have bid-and-ask prices that can be observed in the marketplace. Bid prices reflect the highest price that the marketplace participants are willing to pay for an asset. Ask prices represent the lowest price that the marketplace participants are willing to accept for an asset. For securities whose inputs are based on bid-ask prices, the Company's valuation policies require that fair value be within the bid-ask range. The Company's policy for securities traded in the OTC markets and listed securities for which no sale was reported on that date are valued at their last reported "bid" price for securities held long and the "asked" price if held short.

Restricted securities of publicly traded companies are valued at the fair value of the public company's publicly traded securities less a discount. The Company discounts the unrestricted fair values based upon various factors such as the length of the restriction period and the underlying stability of the public company.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Cash and Cash Equivalents

For purposes of Cash and Cash Equivalents, the Company considers money market funds with a weighted average maturity of three months or less to be cash equivalents.

Income Taxes

The Company accounts for income taxes in accordance with ASC Topic 740-10, "Accounting for Income Taxes". Under the asset and liability method of FASB ASC Topic 740-10, deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled.

WestPark Capital, Inc.
Notes to Financial Statements

Income Taxes (continued)

The Company is required to determine whether a tax position is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any tax related appeals or litigation processes, based on the technical merits of the position. The Company files an income tax return in the U.S. federal jurisdiction, and may file income tax returns in various U.S. states. The Company is not subject to income tax return examinations by major taxing authorities for years before 2014. The tax benefit recognized is measured as the largest amount of benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. De-recognition of a tax benefit previously recognized results in the Company recording a tax liability that reduces net assets. However, the Company's conclusions regarding this policy may be subject to review and adjustment at a later date based on factors including, but not limited to, on-going analyses of and changes to tax laws, regulations and interpretations thereof. No interest expense or penalties have been recognized as of and for the year ended December 31, 2017.

NOTE 2: *NET CAPITAL REQUIREMENTS*

Pursuant to the net capital provisions of Rule 15c3-1 of the Act, the Company is required to maintain a minimum net capital, as defined, in such provision. At December 31, 2017, the Company had net capital and net capital requirements of \$628,982 and \$100,000 respectively. The Company's net capital ratio (aggregate indebtedness to net capital) was 1.87 to 1. According to Rule 15c3-1, the Company's net capital ratio shall not exceed 15 to 1.

NOTE 3: *COMMITMENTS AND RELATED PARTY TRANSACTIONS*

The Company leases its facilities and certain equipment under operating leases expiring through 2021 in New York, Florida, and California. One of the Company's office leases is in the name of the Parent but is paid by the Company and is included in the following schedule. Future minimum lease payments under the non-cancelable leases with initial terms greater than one year as of December 31, 2017 are as follows:

	Total lease Amount
2018	\$800,445
2019	\$809,945
2020	\$756,601
2021	\$580,624

WestPark Capital, Inc.
Notes to Financial Statements

Total rental expense including utilities for the year ended December 31, 2017 was \$1,002,217 for the above leases.

For the year ended December 31, 2017, the Company advanced \$517,355 to its Parent. The amount due is non-interest bearing and due on demand.

NOTE 4: INCOME TAXES

The Company's income tax fiscal year end is June 30, 2018, at which time it has a net operating loss carryforward of approximately \$2,564,761 of which \$1,327,466 was available until June 30, 2021 and \$785,193 expiring through June 30, 2032. Net loss for financial reporting purposes differs from taxable income primarily due to temporary differences relating to depreciation and unrealized losses. For the twelve months ended December 31, 2017, the Company has a taxable income of approximately \$452,192.

The Company is deficient in filing its tax returns for income tax fiscal year ending June 30, 2013; June 30, 2014, June 30, 2015 and June 30, 2016. The impact of any penalties for late filing has been deemed not material for the fair presentation of the financial statements.

NOTE 5: FAIR VALUE MEASUREMENTS

The Company's assets recorded at fair value have been categorized based upon a fair value hierarchy in accordance with ASC 820. See Note 1 for a discussion of the Company's policies.

The following table presents information about the Company's assets measured at fair value as of December 31, 2017:

	Quoted Prices in Active Markets For identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance as of December 31, 2017
Assets				
Cash	\$ 541,678	-	-	541,678
Securities owned, at fair value	\$ 197,846	\$	\$	\$ 197,846

The Company did not measure at fair value on a recurring basis any of its assets and liabilities using significant other observable inputs (Level 2) or unobservable inputs (Level 3) during the year ended December 31, 2017.

The Company valued thinly traded marketable securities at Level 1 because even though the market for these securities is relatively inactive and volume of trades is low, there existed

WestPark Capital, Inc.
Notes to Financial Statements

quotations for such securities. The Company primarily owns securities in smaller public companies that are thinly traded.

Unrealized holding gains and losses on available-for-sale securities are excluded from earnings and are reported as a separate component of other comprehensive income (loss) until realized. Realized gains and losses from the sale of available-for-sale securities are determined on a specific identification basis.

NOTE 6: FINANCIAL INSTRUMENTS, OFF-BALANCE SHEET RISK AND CONTINGENCIES

In the normal course of business, the Company's activities through its clearing broker involve the execution, settlement, and financing of various clients' securities transactions. These activities may expose the Company to off-balance sheet risk. In the event a client fails to satisfy its obligations, the Company may be required to purchase or sell financial instruments at prevailing market prices in order to fulfill the obligation.

The Company owns securities that are valued at the December 31, 2017 quoted market price. The Company may incur a loss if the market value decreases subsequent to December 31, 2017. The Company bears the risk of financial failure by its clearing broker. If the clearing broker should cease doing business, the amounts due from this clearing broker could be subject to forfeiture.

The carrying amounts of cash and cash equivalents, deposits with clearing brokers, receivables, other assets, commission payable, accounts payable and accrued expenses and due to parent are carried at amounts that approximate fair value due to the short-term nature of those instruments. Securities owned are valued as described in Note 1.

The Company has cash in financial institutions of \$541,678 excess of the FDIC insurance coverage of \$250,000 by \$291,678,

The Company is involved in various disputes arising in the normal course of business, some of which are large and indeterminable in amount. Management, after review and discussion with Counsel, believes the Company has meritorious defenses and intends to vigorously defend itself in these matters, but it is not feasible to predict the final outcomes at the present time.

During 2017, the firm settled the lawsuit that was brought by Cozen O'Connor against WestPark Capital in 2016.

WestPark Capital, Inc.

Other assets consist of Security Deposits of \$109,038.

To Shareholders of WestPark Capital, Inc.

We have reviewed management's statements, included in the accompanying Exemption Report in which (1) WestPark Capital, Inc. "Company" identified the following provisions of 17 C.F.R. §15c3-3(k) under which the Company claimed an exemption from 17 C.F.R. §240.15c3-3: (k)(2)(ii) (the "exemption provision") and (2) the Company, stated that it met the identified exemption provision throughout the most recent fiscal year of 2017. The Company's management is responsible for compliance with the exemption provision and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and accordingly, included inquiries and other required procedures to obtain evidence about Company's compliance with the exemption provision. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM
ON APPLYING AGREED UPON PROCEDURES**

To the Shareholders of WestPark Capital, Inc.

We have performed the procedures included in Rule 17a-5(e)(4) under the Securities Exchange Act of 1934 and in the Securities Investor Protection Corporation (SIPC) Series 600 Rules, which are enumerated below, and were agreed to by **WestPark Capital, Inc. (Company)** and the SIPC, solely to assist you and the SIPC in evaluating the Company's compliance with the applicable instructions of the General Assessment Reconciliation (Form SIPC-7) for the year ended **December 31, 2017**. Management of the Company is responsible for its Form SIPC-7 and for its compliance with those requirements. This agreed-upon procedures engagement was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures we performed, and our findings are as follows:

1. Compared the listed assessment payments in Form SIPC-7 with respective cash disbursement records entries noting no differences;
2. Compared the Total Revenue amounts reported on the Annual Audited Report Form X-17A-5 Part III for the year ended **December 31, 2017**, with the Total Revenue amounts reported in Form SIPC-7 for the year ended **December 31, 2017** noting no differences;

4. Recalculated the arithmetical accuracy of the calculations reflected in Form SIPC-7 and in the related schedules and working papers supporting the adjustments noting no differences; and
5. Compared the amount of any overpayment applied to the current assessment with the Form SIPC-7 on which it was originally computed noting no differences.

We were not engaged to, and did not conduct an examination or a review, the objective of which would be the expression of an opinion or conclusion, respectively, on the Company's compliance with the applicable instructions of the Form SIPC-7 for the year ended **December 31, 2017**. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Company and the SIPC and is not intended to be and should not be used by anyone other than these specified parties.
